Section 1: Hands-On Demonstration

Part 1: Identify Forensic Evidence in an iOS Data Case

8. Make a screen capture showing the contents of the Properties pane.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

11. Make a screen capture showing the contents of the Contacts grid.

14. Make a screen capture showing the contents of the Calendar grid.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

20. Make a screen capture showing the contents of the Messages grid.

24. Make a screen capture showing the contents of the Notes grid.

34. Make a screen capture showing at least two car pictures in the Thumbnail View.

44. Make a screen capture showing the Table of contents in the investigative report.

Part 2: Compare iOS Data Cases

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

15. **Make a screen capture** showing the **additional note** in the newer data case.

Section 2: Applied Learning

Part 1: Identify Forensic Evidence in Android User Data

7. Make a screen capture showing the Device Information.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

9. Make a screen capture showing the ICE Contacts.

12. Make a screen capture showing the Contact Email Accounts.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

15. Make a screen capture showing the Installed Applications.

19. Make a screen capture showing the recovered contact information from the Android phone.

Part 2: Identify Forensic Evidence in Android Application Data

4. Make a screen capture showing the User Activity Timeline between 9:17:47 AM and 9:24:51 AM on 6/2/2021.

7. Make a screen capture showing the contents of the Own Whispers grid.

10. Make a screen capture showing the contents of the History grid.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

17. Make a screen capture showing the contents of the list_item 1-5 table.

20. Make a screen capture showing the Keep Notes account owner.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

23. Make a screen capture showing the Investigative Report's Table of Contents.

Section 3: Challenge and Analysis

Part 1: Research Report Writing for Digital Forensics

Prepare a brief summary of the appropriate structure and best practices for preparing a digital forensics report.

The appropriate structure and best practices for preparing a digital forensics report are to include a scope of the investigation, an executive summary, what the proposed next steps in the investigation are going to be and the story behind the investigation.

Part 2: Draft a Forensic Report

Case Summary

On May 22, 2026 I conducted an investigation on the contents of the image files for the alias names, Bonnie and Clyde, for iPhone and Android to investigate a case on car theft. A full forensic examination and report is being requested for criminal charges to be brought against the perpetrators.

Findings and Analysis

1. After completing the forensic acquisition of the stolen laptop I began analyzing the forensic image of the stolen laptop with EnCase. 2. I used the following tools for forensic analysis, which are licensed to this examiner: Guidance® Software's EnCase® and Adobe Acrobat Reader®. 3. The following evidence was found from the iPhone and Android disk images: photos related to suspicious activity and emails with suspicious messages and the identity of the perpetrator.

Conclusion

I concluded that there is enough evidence to begin another investigation that will lead to the identity of the perpetrator and find more connections that will pinpoint who has done this.
