Time on Task:

3 hours, 9 minutes

Progress:

100%

Report Generated: Thursday, June 25, 2026 at 4:44 PM

Section 1: Hands-On Demonstration

Part 1: Perform Packet Capture and Analysis

11. Make a screen capture showing the timestamp-sorted traffic.

Conducting Forensic Investigations on Network Infrastructure (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 09

13. Make a screen capture showing the IP-filtered traffic.

15. Make a screen capture showing the port-filtered traffic.

Conducting Forensic Investigations on Network Infrastructure (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 09

17. Make a screen capture showing the TCP push flag-filtered traffic.

19. Make a screen capture showing the http-filtered traffic.

Part 2: Analyze a Router for Forensic Evidence

5. Make a screen capture showing the router's version output.

7. Make a screen capture showing the router's interface details.

10. Make a screen capture showing the router1 ARP table.

13. Make a screen capture showing the IP routing table.

15. Make a screen capture showing the currently running configuration.

Section 2: Applied Learning

Part 1: Perform Advanced Packet Capture and Analysis

7. Make a screen capture showing the **successful transfer of the secureTopo.png file.**

Conducting Forensic Investigations on Network Infrastructure (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 09

15. Make a screen capture showing the passive port specified by the FTP server in the Packet Details pane.

18. Make a screen capture showing the Time to live field in the Packet Details pane.

20. Make a screen capture showing the Follow TCP stream window.

9. Make a screen capture showing the entries in the firewall log.

11. Make a screen capture showing the resolved entries in the firewall log.

Section 3: Challenge and Analysis

Part 1: Identify the Source of a Suspicious Route

Make a screen capture showing the non-RIP route that you discovered on the target router.

Part 2: Identify Suspicious Outgoing Connections

Record the destination IP address and Port number of the outgoing connection attempt.

The destination IP address is 202.20.3.10 and Port number of the outgoing connection attempt is Port 22.
